PROFESSIONAL SUMMARY

As a recent master's graduate, I am seeking an entry-level position in the IT industry to gain practical experience, further develop my skills and advance my career as an IT professional. I have an understanding of various programming languages, data analysis and software development principles. With exceptional communication, problem-solving, and teamwork skills, I am committed to delivering results in any project.

SKILLS

- HTML/CSS/JavaScript
- Dart/Flutter
- MySQL/SQLite/ MongoDB
- React
- Python
- Java
- Azure
- Git/GitHub

PROJECT

Personal Portfolio – [Website](#)

- Designed and created a personal portfolio contains my most recent projects after graduated, using **HTML/CSS**
- Continuously update more functions using **JavaScript**, and more upcoming projects to demonstrate my learning.

MyRecipeApp - [GitHub](#)

- Self-taught **Dart/Flutter**.
- Designed and built an app that contains multiple cooking recipes, with images, instructions, filters by dietary and complexity.
- Deployed the app in multiple platforms: Android and iOS.

MyArtCatalogue - [GitHub](#)

- Designed and built an Android/iOS app that records details about local artworks. Using native device to capture images and store in **SQLite**.
- Implemented **Google Map API** to locate and store marked location of the artworks. Showcased completed product using **Android Studio**.

SIDE PROJECT

Third-person zombie shooter game – Collaboration with friends

- Scanned 3D models and cleaned up using **Blender**, experienced with **Metahuman**.
- Building test environment using **C++/Unreal Engine**.
